

Helping students reach **their learning potential**

Information for parents and guardians

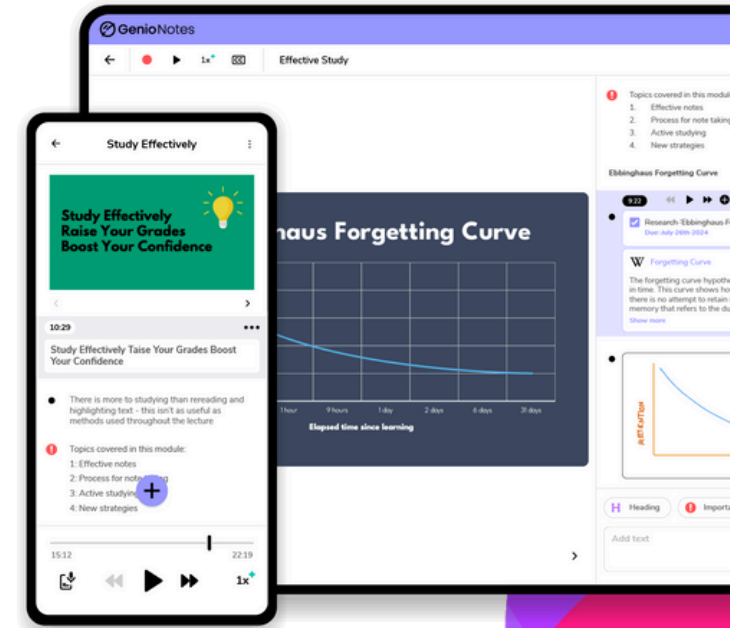

What is Genio Notes?

Genio Notes is a personal study tool that helps students capture every second from class and build useful knowledge without stress.

Through classroom recordings, learners are able to add labels, text notes, lecture slides, definitions, images and more to their workspace, creating a complete set of multimedia notes in the process.

Genio Notes is trusted by thousands of students around the world to help them achieve note taking independence. Our note taking tool has been recommended by need assessors and disability practitioners since 2007.

What are the benefits

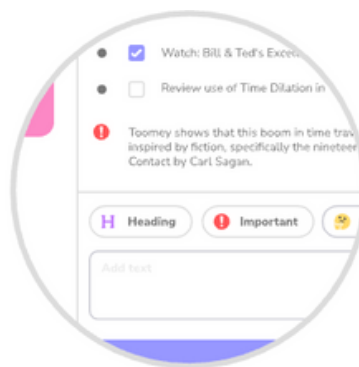

- ▶ **Genio Notes equals better grades.** 94% of students report that Genio Notes improves their grades.
- ▶ **Never get left behind.** Who hasn't zoned out in class? Well, Genio Notes acts as a personal safety net, recording anything you may have missed in class.
- ▶ **Gain skills for life.** Genio Notes helps learners reach their full potential by developing skills that will be used throughout college and into their future career.

How to get started?

If Genio Notes has been recommended, there's only three short steps to note taking excellence.

- 1** Follow the link in the "Welcome to Genio Notes" email to register user information.
- 2** Access Genio Notes at Genio.co, or download to a device of their choice (including Mac, Windows, iOS, Android & Chromebook).
- 3** Complete a short tutorial to learn the key functions - it only takes a couple of minutes - and they'll be ready to start taking notes!

How Genio has helped other students

"Genio has changed the way I take notes and has helped me become a better student because of it."

Sidney, Gardner Webb University

"Genio helped me build study techniques that led me to feel better prepared for comprehensive exams and tests."

Luke, Trinity University

"Previously I had just taken notes on my own but Genio has improved my learning and study skills. I am less agitated about what I may have missed and what I may need to know."

Sariah, Xavier University
